Brookings-Harbor Voices PSA – Dual Credit

Hi, this is Sean Gallagher – Brookings Harbor School District 17C Superintendent here to talk to you about how the school district is currently working collaboratively with colleges like South Western Oregon Community College and Oregon Institute of Technology to significantly increase dual credit opportunities for students. Dual credit is a wonderful program for high school students to take a class for both high school and college credit at the same time. Often times the costs per credit are very minimal and in some cases are free based upon the position of the higher education institution. 30

When a student earns dual credit at the high school level, they will often graduate with a high school diploma and a college transcript where the college credits can be transferred to most other institutions of their choosing. Currently, multiple Brookings Harbor High School teachers have been approved to teach dual credit for courses ranging from core academics to career technical education classes. Brookings Harbor High School is also currently working on expanding Career Technical Education programs like Robotics, Health Care, Early Childhood Education, and Welding. 1.00

Expansion of dual credit is one way that Brookings Harbor School District is preparing students to be both college ready and career ready where most all of the skill sets found in either college or career readiness are one in the same. Please stay tuned for more information as programming is developed, credits are offered for students, and partnerships continue to strengthen between the Brookings Harbor School District and higher education institutions like South Western Oregon Community College, and Oregon Institute of Technology. For more information, please contact either counseling or administration at Brookings Harbor High School.

Remember that only together we can ensure that Every Student Can Succeed here at Brookings-Harbor School District 1.45
